MAN WHO JUMPED BAIL HERE NOW "ROLLING IN CASH"

WENDEL HAD VARIED
CAREER OF FINANCE
WHILE IN JANE-
VILLE.

FINED IN RACINE

Caught for Stealing Auto—Now
Claims to be High Mogul
in Oil World.

The trials and troubles of Edward C. Wendel, self-styled oil magnate and former night shop superintendent at the Samson Tractor plant, did not end when he jumped \$100 bail and left Janesville last month. Instead he got into more of trouble.

From here he went to Racine where he and a pal, John J. Cochran, tried to steal an auto, were arrested, and brought into court, according to information received by Dist. Atty. S. G. Dunwiddie. Wendel was released with a \$200 fine after taunting pleads by his wife and mother who came west from Saginaw, Mich., to see Racine, presumably for Solvay.

Cochran, who claims Janesville as his home, contracted scarlet fever while in the Racine jail and is now sick in the isolation hospital in that city. Cochran also worked at the Samson plant here.

Jumped Bail Here.

It is remembered that Wendel was arrested here September 22 on charge of stealing carburetors at the Samson plant. He was arraigned and an examination date was set. He was released after furnishing his own bail of \$300, but failed to show up for his hearing. No search was made by Mr. Dunwiddie, no believability of the \$300 bail forced to be in the nature of a fine.

Now a great fortune is Wendel's, merely for the asking—that is, according to a J. H. Moore claiming to be from Madison, who has written to the Gazette, "let the people of Janesville know of Wendel's brilliant future in the oil business."

Given Drubbing.

Just before his sudden departure from Janesville, Wendel also received a sound beating from the fists of a young friend residing near Hanover. It is alleged that Wendel was with a number of Janesville girls and near the farm of Hector Bleasdale attempted to run down geese along the county highway.

When he was accused of having a stolen goose in his car he reported Wendel denied the accusation with the result that the turner had yanked him out of the seat, found the goose and proceeded to inflict several forms of punishment on Wendel.

As while here Wendel was quite active in an automobile radio, which invited him considerable fame, for an antique model of machine. He is also plugged to have enlarged himself on an extensive baseball pool system and again failed to settle with the venetian.

This is the letter received by the

"While in Calango, I came across some very interesting news that I believe will interest the people in Janesville. Edward C. Wendel, formerly superintendent of the Samson Tractor company of Janesville, soon became head of one of the largest oil syndicates in this country."

"Mr. Wendel, while staying at one of Cleveland's large hotels a few days ago, came face to face with his father, whom he had not seen for many years. After a happy reunion, Edward decided to tell his father that he had accumulated a large fortune in oil investments in southern California and is at present president of the largest oil syndicate in the south."

"Mr. Wendel states that as he is getting along in years, he will be unable to make a living on the present income, so he has come to the conclusion that for this reason, Edward decided to tell his father that he will be familiar enough with the oil business to take advantage of his experience."

"Mr. Rowan was indicted on 17 counts more than a year ago. He gained much publicity when he

was accused of having a stolen

goose in his car.

"He was charged with having a

stealthy record of each pre-

BLUE SUNDAY LAW TO BE OPPOSED

Little Encouragement from Republican Members of Congress.

INERTIAL TO THE GAZETTE.

Washington.—Chairman of the enactment of a national "blue Sunday" law, which has been started by Wilbur F. Crafts, head of the National Reform Bureau, believes that the movement, which has as its aim a return of the tyrannical and narrow-minded restrictions of the past, is taken seriously everywhere except in the National Capital, where political gossip is centering upon the makeup of the new administration.

Bill introduced.—Senator Jones of Washington, who has year after year introduced a bill of this sort "by request" of some of the most important constituents, admits he has never read all of its provisions and that he has not the slightest intention of the measure, as nothing of passing it to a committee. Representative Sims of Tennessee has also introduced several bills of the kind, but has been defeated for reelection. Representative Randall of California, author of the war-time prohibition bill, will be superseded in the next Congress by Republicans, says he will have nothing to do with blue laws. Speaker Gillette and Majority Leader Mondell scoff at the idea and declare that they have no chance of being put through Congress at any time in the near future.

Entourage Prohibition.

While Republican leaders in the Senate and House and the members generally are opposed to any attempt to deprive the people of the country of innocent Sunday amusement which would do them no harm, they are quite agreed that the protection question has been settled. The ratification on the part of forty-five of forty-eight states of the eighteenth amendment, and by the enactment of the Volstead act and by the majority of candidates given last month by the electorate of both the urban and Cooldale and a Republican House and Senate, they have no intention of revising a dead issue.

Guided in Old Field.

Those moral forces in the country which secured the passage of both the liquor and women's suffrage amendments to the constitution will probably be guided, so far as Republican leadership is concerned, into the field of education, where is a fertile field of intelligent educationalism. For some time those who are influential in Congress on the Republican side have been impressing the fact that eight millions of people who live within continental United States do not know how to read and write the English language. They are educated also over the world, but the people of schools teachers has so far rivalled that of other vocations has been increasing, that the earlier grade of ambitious youth which was content to teach school as a stepping-stone to other things or while receiving higher learning as some great institution is no longer to be had.

New Cabinet Head.

It has been proposed in the Town-council that a Department of Education be created so that the cabinet and state and its energies might be devoted to the one purpose of doing away with ignorance in the United States and laying the foundations of an educational system so broad and deep that such condition as a present exists could never return. Yet the powers of the federal government in this respect are confined to the District of Columbia and the territories. It is believed by many of the national legislators that such a department would be too great a piece of chicanery for the task. It is more likely that the work of the bureau of education now in the Interior Department will be enlarged so as to further spread the gospel of the need of education.

WIDOW OF LOCAL JUDGE DIES AT 78

Mrs. Amos P. Prichard, widow of Judge Amos P. Prichard, a resident of this city for more than 65 years, died at 1:30 o'clock this morning at her home, 345 South Main street, after an illness of one month with heart trouble.

Augusta Dearborn Prichard was born in Concord, N. H., March 3, 1842. She came of old New England ancestry, her family having been among the first settlers of New Hampshire and identified with its early history.

She came to Janesville with her parents, Mr. and Mrs. Lyman Dearborn in 1855. Mrs. Prichard, one of the charter members of the Unitarian All Souls Church, and the leading soprano in that church for 25 years. She possessed a beautiful voice and was recognized as one of the finest interpreters of church and oratorio music in the city.

She leaves to mourn her death, two daughters, Mrs. Charlotte A. Prichard, and Mrs. John H. McNaught; five grandchildren, Louise McNaught, Dean, Lyman, Alice and Robert Kimball; all of this city; a brother, Charles H. Dearborn, Los Angeles, Calif.; two sisters, deceased; her death, Ida Jane Dearborn Prichard and Abby Elizabeth Kimball.

The funeral will be held at 3 o'clock Thursday afternoon at the family residence.

SNYDER REFUSES CITY'S CHECK, \$16.98

Charles E. Snyder, plumber, refuses to accept the city's check for \$16.98 in settlement of damages to his car when it ran into a stone on North Franklin street. The check has been turned with the information that he will put it in the hands of an attorney. He claims \$20.46 is due him for damages to the springs and a tire.

"He asks the city to pay the entire cost of a new set, \$24.48, to replace the damaged one which he admitted had been in for a year, and out of which he had gotten fine service," explained Supt. H. A. Griffee. "In return he allows \$2 for the old car, which was repaired at \$1.48. The city wants to pay for the other damages, \$5.50, and is willing to pay him \$10 for the tire damage. This is the same as paying \$4.80 for fixing up the old tire and giving \$6 cash to him besides. We don't feel obliged to pay for a new tire."

WOMEN NIGHTS.

Employees in the city clerks' office are working nights this week in an effort to complete the tax roll by Saturday night so it can be turned over to the treasurer. Tax collection is to begin Monday.

FAIRNESS TO BOTH BUYER AND SELLER

Burden of Mr. Dawes Talk to Twilight Club—City Manager to be Discussed.

With 175 students attending the University of Wisconsin, Rock county has the third largest representation there, of 71 counties in Wisconsin, a report from the university's office shows.

Dawes, vice-president of the Central Trust company, Chicago, who spoke before the Twilight Club here Tuesday night, the meeting, attended by 200, was the largest, in attendance, in the city.

The meeting was held at the home of George Sutherland, chairman of the Merchants and Savings bank, was chairman in the absence of George Sutherland, who is ill.

Warns of Japan.

At the meeting, warning that another big war is brewing through the militaristic policy of Japan in Asia, was sounded by Rev. H. E. Wetherby, Methodist minister, to Korea. He said that the danger is like that of a volcano—apt to break out at any time.

Present financial troubles of the nation, said Mr. Dawes, are due to the market changing from a seller's to a buyer's market with consequent reduction of prices. From a period of inflation of commodities as well as currency, the situation has turned to one where the public refuses to make further purchases until prices come down, he explained.

Pair to Both Parties.

"It is a fundamental movement," he said. "The great economic laws, interfered with during the war, are being restored." The new basis of business must be that no arrangement will endure which is not essentially fair to both parties.

There was whole-hearted opposition of contractors to the war," he reported, "but now that the nation must get back to the moral sense before the war of accepting the truth that two and two make four and nothing else."

The country has been off the track for the past four years," he said, "because it lost its common honesty." We have got to stop. Our duty is to pay a fair price, otherwise we will have bankruptcies.

Excess Profits Tax.

Questioned in open meeting as to whether present economic conditions are due to the federal excess profits tax, Mr. Dawes replied that measure never was fair, but it was a necessary measure to raise money, although it took cash out of business that was needed, forcing concerns to shut down. He declared that heavy taxes will continue, but that easier methods will be instituted.

City Manager Placed.

At the close of the meeting, Mr. Dawes was made an honorary member. The February meeting will be in the form of a dinner. Resolved, that Janesville needs a managerial form of government. Prof. J. P. Louth, of the county training school for teachers, will act as chairman.

A letter of thanks from Prof. D.

D. Mayne, University of Minnesota, founder of the club, three years ago, left for Madison this morning to be present at the hearing whereby several of the heirs are contesting the estate of late J. H. Palmater, Alton.

The mayor left for Chicago today, where he will spend two or three days visiting relatives whom he has not seen for seven years.

County Third in Number of U. W. Students

Seek to Cut Number of Root Fires

Don't try to burn the soot out of your chimney by any fool experiments, it is the advice of J. E. Florin, state superintendent of fire prevention, in bulletin to Fire Chief Conner. The only way to prevent is to Murphy.

Caused by an alarming number

of accidents of chimney and root fires in Wisconsin, he issues the following bulletin:

Because of the scarcity of hard coal, soft coal is being used in stoves and furnaces intended for wood or hard coal. The smoke pipes and chimneys become clogged in a short time. Then dangerous experiments are tried to remove the soot. Waste paper and matches are burned and drafts opened, sending flames through the pipes and chimneys. The more foolhardy resort to gasoline or kerosene.

This practice is more than likely to set the shingle roof on fire. The flames overheat the pipes and chimneys and find any defect in either pipe or chimney work need at once or in contact with chimney becomes ignited.

Soft coal gases and fumes disintegrate the mortar between the brick, creating openings for the dangerous spark.

Often these defects are in concealed places in attics or between ceilings and floors, and a bad fire may develop unnoticed.

Frequent, thorough cleaning of chimneys and smokepipes is the only safe remedy.

In 1919 over one-fourth of Wisconsin's fire waste was due to heating plant hazards.

COAL SHIPMENTS DROP OFF SLIGHTLY

A small drop in the number of cars of coal received here by railroad during the past week is reported. A total of 53 carloads, or 3,835 tons, arrived over both railroads. This was divided into 38 cars of anthracite, 1,620 tons; 49 loads of soft coal, 1,200 tons, and 16 cars of coke, 915 tons.

There has been a noticeable decrease in the amount of building material received. However, the local conditions are considered similar to those prevalent throughout the nation, which will not change until business improves.

DELAVAN ROBBERY BY AUTO THIEVES?

Thieves who stole the I. N. Dunwiddie car here Saturday night may be the same ones who robbed Lyman Bratt, state auditor of Madison.

He bases this on the information that two men in a Ford car, answering the description of the stolen one, bought five gallons of gasoline at the Park street gas station Saturday evening and visited a nearby service station.

It was reported that an attempt was made earlier Saturday evening to steal the Ford coupe owned by F. Caleb Blodgett, Court street.

No further information has been secured about either the Dunwiddie or the Morse car, stolen a week ago.

Many of these fires occur at night, thus greatly endangering the sleeping occupants of homes, hotels and apartments.

In 1919, in this state, 73 persons died and 147 were injured through fire. Women and children were the chief victims.

Is your family and home free from fire and the dangers?

Chief Backs Plan to Hire Police Woman

Hearthy endorsement of the proposal for the city to hire a police woman is given by Chief of Police George C. Murphy, although he does not believe the immediate need to be pressing.

"A woman with a star could do lots of good work here," he said. "She could supervise the dances, watch the theaters, and keep an eye on the railroad stations. There is no limit to the amount of good she could do in looking after girls. She would no doubt prove a valuable asset to the police department as well as city health authorities."

The need, however, is not urgent at this time. When things open up and the city begins bounding along toward 25,000 people at the time we will need a woman on the force."

The plan of hiring a police woman was suggested by Miss Gertrude Cobb in a speech last week before the Federation of Women, of which she is president. The matter will be the chief topic of discussion at a

HOLSTEIN BREEDERS TO ELECT OFFICERS

Election of officers for the Rock county Holstein breeders will be part of the program at the annual meeting of the association to be held in the Janesville city hall next Tuesday. The meeting is called for 1:30 in the afternoon.

Organization for a co-operative sale will be attempted at this meeting. There are more than 2,000 pure bred Holsteins in Rock county, and 54 farmers owning pure bred and grade Holsteins, according to information furnished by the association.

Two speakers are scheduled to address the county organization—William Oldham, secretary of the Wisconsin Pure Breed Holstein Breeders association, and J. Riordan of the famous "Harvest" farms.

Harold Ward is president of the Rock county association, with J. W. Jones, vice president. L. Fisher, treasurer; and Eddie Held, Jr., treasurer.

Members hope to fix a date for a big sale in Janesville.

FARMERS TO WAGE FIGHT FOR AGENT

Committee to Appear Before County Board Early Next Month.

When the county board of supervisors meets in January and the county agent fight is carried onto the floor, there will be a committee composed of George Hull, chairman, and W. G. Patterson, Evansville, and William Latshaw, Beloit, to represent the interests of the Rock County Farm Bureau.

The executive committee meeting yesterday in the court house decided to take this active stand to retain the office. The committee was appointed to present its case and to represent the majority of farmers in Rock county who have been so pronounced in their desire to retain the agent by having the county board rescind its resolution to abolish the office next July.

Meeting Friday.

Further means of waging an active fight for the office will come before the Farm Bureau at the county meeting to be held in the Janesville city hall Friday afternoon. Full discussion of the matter will come up at this time.

The executive committee, composed of Hugh Hemmingsway, the president, Edward Parker, C. E. Cullen, Alvin Maxfield, treasurer, Frank Arnold and Lee Campbell, also voted to push an active campaign for the county milk products steering in January. This campaign is aimed to aid the milk producers in averting a serious loss from a surplus of milk.

The committee of the Farm Bureau will meet with the milk distributor for agreement on the campaign methods Friday afternoon in the court house.

Township chairmen will be asked by the executive committee to carry on the anti-butter substitute fight into each township.

Fight "Oico."

It is claimed that the present decline in milk product prices cannot be charged to over-production, but rather to the enormous increase and consumption of oleomargarine. In the total milk supply of this county it is estimated that about 30 per cent is used as butter fat, 20 per cent as city milk, 5 per cent as cheese, 5 per cent as ice cream and 30 per cent on the farms where the milk is produced.

Increased consumption of real butter, it is claimed, will give the desired relief to the farmer and milk producer. The dairy men want the use of "oico" stopped, especially by the farmers themselves. The use of more milk on the farm and city the cutting of unprofitable cows and the advertising of Rock county farm goods.

The meeting of the Farm Bureau of the town of Janesville was poorly attended because of inclement weather. Little business was transacted, the members preferring to bring their business up during the county meeting Friday.

LEAGUE TO ASSUME OPIUM TRAFFIC DUTIES

(Continued from page 1)
replies from the supreme allied countries and from the representative powers concerning the terms of mandates and the boundaries of territories placed under the supervision of various nations. In addition the council of the league is said to have delayed the giving of information requested on other questions.

There is some opinion in the assembly that the mandates under which the powers fix their own terms are not properly mandates and there are indications the question may be thrown back on the supreme allied council if sufficient information has not been secured before Thursday night.

Rules to Speed Up.
The assembly, which has been disposing of only one subject a day since Monday, tried today to make better progress. On the program was the task of electing new members to the league, the choosing of four new elective members to the council and the discussing of questions regarding the "white slave" traffic and the opium trade, which was left over from yesterday's session.

It appeared that Austria would probably be admitted to the league without opposition, but Bulgaria would also be accorded membership. In the case of France it was said, would probably refuse to vote. It seemed probable that Brazil would again be given a place on the council and that a similar honor would be given to China had many of the delegations come from China and it appeared that Norway would replace Belgium. Many delegations were expected to support Belgium when the election takes place.

The propositions regarding the "white slave" traffic and the international convention of 1907 to be invited to send delegates to another international conference before the next assembly; also that the council appoint a committee to investigate the deportation of women and children in Asia Minor.

Women Delegates Appointed.
Discussion brought to the platform for the first time one of the women substitute delegates, Miss Heidi Forthammer of Denmark. Her appeal for promotion on behalf of women who had been deported during and after the war. She was enthusiastically applauded, especially when she pleaded for the 20,000 Armenian women still in captivity.

When the "white slave" resolutions came to a vote they were unanimously adopted by the assembly.

A Letter from Home

Dear Mother:
Nothing could have pleased me more than your Christmas gift, a year's subscription to the Gazette. It is a great big letter from home to a dear old boy bringing to me the news of all the folks in whom I'm interested. It brings the home town and its affairs close to me each evening.

Believe me, it was the best Christmas gift ever.

BELIOT THINKS THE HEAVENS ARE SENDING PRIZES

Beloit, Dec. 16.—The heavens are raining brimstones on the city of Beloit.

When a heavy plate glass in the factory of Wilson Banks on South Street was cracked and shattered yesterday, investigation showed that a curious stone, similar to furnace slag, had struck a downward blow, glanced to the sidewalk with such force to be pulverized.

It is believed that the missile is an aerolite.

The force with which the stone hit and the fact that the crack in the glass shows that the missile hit at a decided angle downward, has Beloit believing the stone came from the heavens.

PUPILS TO GIVE PILGRIMS' PAGEANT

Plans were made at a Parent-Teacher association meeting yesterday afternoon at the Jefferson building for an elaborate program to be given to the men to whom the men are especially invited. A pageant prepared by the seventh and eighth grades celebrating the ter-centenary of the landing of the Pilgrims at New England and refreshments will be served. A committee consisting of Mrs. G. C. Dunn, Mrs. D. Antislid, and Mrs. Ira Wartendyke is in charge.

An interesting program was given yesterday to a large audience of mothers and friends, one hundred and fifty in number, in each grade. It included: Kindergarten orchestra, "Christmas Eve Reverie," first grade, folk dance, "Children's Polka," second grade, "The Longest Day," model school group, of Christmas songs; third grade, song, "Christmass Joy"; fourth grade, song, "We Do," fifth grade, dramatization, "The Spider and the Fly"; mixed ninth and sixth grades, song, "Christmass Joy"; sixth, six original Christmass rhymes; seventh, song, "These Evening Bells"; eighth, story, "This Evening Bell." The program will be in Janesville this week to parole out Ryan to his parents.

MANAGING A CITY.

Oshkosh is having trouble with its commission form of government. The system is accepted as better than the aldermanic form, but the mayor at the head of the commission, is subject to great criticism for his failure to attack business problems and get them settled.

The city manager form of government has its decided advantages over both the commission and aldermanic forms. Under Chapter 84 of the Revised Statutes of Wisconsin, edition of 1919, the legislative body of the city is the council. That body can be elected from the wards or at large or by both methods. That is, a direct representative of each ward can be elected and a number from the city at large insuring the representation of the people from the very best men of the municipality.

The troubles arising from both the aldermanic form of government and the commission, is that the aldermen and the commissioners have both legislative and executive powers. That is a double burden and was never contemplated in the original representative government plan. This manager becomes the executive and instead of having many departments reporting to and responsible to the city council, these officers and departments are responsible to the city manager. It is the concentration of both authority and responsibility to the city manager.

Under the city manager law of the state of Wisconsin the steps to accomplish the change is easy. It requires no new legislation. The people of the city are the deciding factors, as they should be. First comes a petition for the change, and in that petition is set forth just what the public asks.

The change contemplates the selection of an alderman from each ward and five at large, making a board of ten members. That would be on the basis of the present ward arrangement. This petition calls for ten per cent of the voters at the last election. That means 600 names. This is presented to the council, and under the statute the council is obliged to set the special election on a date not less than 60 days and not more than 60 days after the petition is regularly presented. If, then, the petition would be presented at the first session of the council, in January, the election could be held early in February or in March. If the voters of the city determine that the affairs shall be run hereafter in a business manner, the election on April 5 will be for a city council. No candidate for mayor is voted for.

When the council meets, a president is to be selected, and he, by virtue of his office, is the presiding officer of the council, and the mayor by courtesy. The real head of affairs is the city manager elected by the council. He is the supreme executive authority and every department reports to him. No citizen will have to hunt all over the city to find who is responsible for any act. It is fixed.

It is noted with pleasure that the Twilight Club is to discuss the manager plan at its next meeting. There should be the closest study of the question and its bearing. The fact that the law in Wisconsin is new and that this is the first opportunity to take advantage of the system adopted in practically every state and successfully accepted in 205 cities, makes it necessary for the public to have the greatest information possible.

The Gazette will be glad to have the matter discussed in its columns by the citizens.

However, it remains a perfectly acceptable statement that the present form of government does not call for the best there is in the city and the managerial plan does.

A CALL, NOT A "DRIVE."

The people of the United States are saturated with drives and calls for money. We have paid out billions of dollars for helpful things and been saving the dying and starving peoples for many, many months. The public is getting a little weary of these organized commercialized "drives." In fact they are "drives" and not voluntary. But here is a job that requires no drive. Back from the front of war in Europe came the Salvation Army, clean and with the glorious reward of respect and love of thousands upon thousands of fighting Americans. They are asking for a few dollars from Rock county for meritorious and humane work. Here is where no driving should be necessary. The uniform of the Salvation Army is the uniform of honor. It has been tried in the trenches, in the hell of battle, in the day time and night of the bloody advance of armed men, and has been found worthy of the highest award. The few dollars sought is a small installment on the debt of gratitude we owe.

Merger of the Janesville telephone companies is asked now definitely from the state railroad commission and the time of the hearing set. There will be a considerable protest, we take it, from the rates to be asked after the merger is accomplished. That the city should have one telephone service is admitted by everybody, in business, especially. That we should pay a large and excessive premium for the one phone becomes a question to be decided after the rate commission has taken all the angles of the submitted evidence into consideration.

The Hon. Mr. Dempsey should be a representative at the meeting of the League of Nations in Geneva. His arguments are most conclusive and final.

JUST FOLKS

THE BOASTFUL BORE.
I do not mind the man who brags about his kin and kin. Although I think his family was good to take him in.

I do not mind the braggart who proclaims himself greater worth.

For boastful parents I have found the finest folks on earth:

But oh, protect me from the man who swells his chest to tell

How some one else has failed where he'd have really done it well.

I can abide the man who boasts a little or his skill.

Though silence on that point I think would grace him better still.

With patience I will hear the man who speaks with honest pride

Of what he gives to charity, if truth is on

his side;

But I confess I try to shun the man,

whose'er he be,

Who claims that no one else on earth knows quite so much as he.

It is a natural trait to brag, all do it more or less.

Though what we are and what we do, is proved by our success:

And I can patient be with men whose worth all people know.

Men readily admit each flattering speech is so:

But oh, defend me from the man who lets his boasting run

When some one else has tried and failed, to tell what he'd have done.

"Do they have blue laws on Half Moon Mountain," asks Harry. They certainly do. What country is so backward that the original blue laws are not yet passed? You mustn't kiss your wife. Sunday nor can you smoke or swear within three miles of a schoolhouse.

One Sunday my wife was away and I was cooking my own dinner. I put a kettle on the stove and put the stove lid on the floor. While going back for another dish I stepped on the lid on the floor. It was red hot and I had a hole in my shoe.

Carl Lasher, the speak, was watching me through a chink in the cabin. He had the grand jury indited me on two counts: Cussing within a mile of the schoolhouse, and dancing on Sunday day.

NEWTON WESLEY ROWELL.

Newton Wesley Rowell, Canadian delegate to the assembly of the league of nations and former president of the Canadian council of ministers, has stood out against the powers in Geneva in defense of the rights and privileges of the small nations.

Mr. Rowell has insisted that the League should not be dominated by the large European nations and used for furthering their interests. In backing up his views he has said that "it was due to European diplomacy that 50,000 Canadians were killed."

As leader of the Liberal party in the province of Ontario he has consistently advocated an advanced program of social legislation and was largely responsible for the workers' compensation act to settle domestic troubles, nor to undertake exhaustive research on any subject. Q. What is the origin of the word "Philistine"? W.A.W.

A. Any word or declamation abounding in arrantness, invective, and bad language, this designation since the first famous orations of this sort were a series in which Demosthenes denounced Philip, King of Macedon. The name was applied first to the orations of Cleostratus against Philip.

Q. How high are the tallest telephone poles? G.J.T.

A. Probably the highest telephone line ever built was on West street, New York city, with poles 90 feet long, some of them carrying as many as 30 cross arms.

Q. How many men were there in the U.S. army at the beginning of the late war? G.C.

A. The war department says that the regular army on April 1, 1917, consisted of 129,297 enlisted men while the strength of the national guard brought the total up to 307,748. At the close of the world war the army totalled 3,897,184 men.

Q. With the amount of electricity in common use, affect a watch through the clothing, and to what extent? A.B.L.

A. The Bureau of Standards says that the amount of electricity in an individual body will not affect a watch.

Q. Is there any place in the United States that never has freezing weather? J.W.

A. The weather bureau says that so far as known no part of the continental area of the United States is believed to be free from freezing temperature. However, freezing temperatures have been recorded in Key West, Florida, and it is probable that there are other islands near the southern end of Florida where it rarely, if ever, occurs.

Q. What preparation can be used on an automobile when snow is keeping them from starting? T.M.M.C.

A. Glycerine applied to a wind shield will keep it clear.

Q. Who thought of using coins for trading purposes? S.C.W.

A. The invention of coined money is attributed to Lydia, queen of Lydia, in the beginning of the seventh century, B.C. The coins at that time were made of a mixture of gold and silver.

Q. What is a "referendum"? H.M.A.

A. By referendum is meant an opportunity which is given to voters to express through the medium of suffrage their approval or rejection of a law passed by a legislative body.

HOW TO VENTILATE THE OFFICE

In the past six years I have found anything resembling a draft worse than one serious student of the subject intimating that exposure or chilling of the body in any way predisposes to pneumonia. The leading cause of pneumonia is the presence of the pneumococcus and the application of the corresponding anti-pneumococcal serum in treatment. In a valuable essay describing these jaded procedures I have mentioned the case of a nurse who refused to handle herself up sufficiently while attending a pneumonia patient in the open air in cold weather. The nurse went up cold and wet, and came down with lung fever.

Nurses are among those being somewhat responsible for a disease among the doctors.

Cancer Hair.

It is believed that hair is a physical growth which would be less injurious for such habitual use, unless it be phenolphthalein tablets, one or two grains, dissolved in water, occasionally irrigating. This same formula may be used for sterilizing shaving brushes or hairbrushes, and the brush removed from the formalin solution rinsed it repeatedly to remove all the formalin.

Please tell me how I can sterilize a new tooth brush without injuring the bristles. (Mrs. C. B. A.)

Soak the brush first with soap and water, rinse well, then let it stand a day in a solution of an ounce of standard Formalin (Liquor Formaldehyde) to four quarts of water, occasionally agitating. This same formula may be used for sterilizing shaving brushes or hairbrushes, and the brush removed from the formalin solution rinsed it repeatedly to remove all the formalin.

WEDNESDAY, DEC. 15, 1920.

Until late in the afternoon this day will not be lucky according to astrology. In the morning Mars, Neptune and Uranus are all adverse. The sun rules beneficially after noon.

At the year draws to a close, the prophecies of astrologers to the effect that the new era would be marked by many changes are more and more realized.

In 1921 there will be many adjustments to conditions that have altered all the old standards of life, but none will be made without some trouble.

It will be wise today to maintain a calm and equable state of mind, for Mars is in a place that makes quarrels and dissensions easy, since irritability and a false sense of injustice are encouraged by the ruler.

Reactionary forces will be strong not only in industry, but in society.

THE spirit of giving prevails at Christmas and we all try to select gifts that will express our thoughtfulness. Give a Hoover to wife or mother. Such a gift will lighten home labor, eliminate much house work drudgery and will last a lifetime.

The Hoover eliminates *all* destructive embedded grit, surface dust and lint. The action of The Hoover during the cleaning operation is such that the colors are, freshened and revived.

We want to be perfectly clear in explanation of these points so we repeat that The Hoover eliminates *all* dirt—it cleans thoroughly—it revivifies the rugs but, in the process, handles them so gently as to materially prolong their life. Think what this will mean to you in the care of your own beautiful rugs and fabrics! Only The Hoover beats...as it sweeps...as it cleans.

During this week we are having a special demonstration in our store of The Hoover. Come in and let us show you how efficiently this economical machine fulfills the claims made for it. You will be down town for Christmas shopping and will probably be in our store several times during the week.

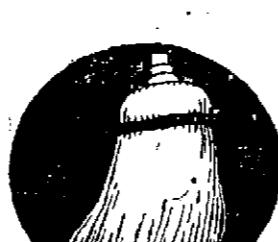

It will take only a few minutes for you to see The Hoover and it will be worth your while to do so—eventually you will want a Hoover in your home. *Let us suggest the desirability of buying a Hoover now to be delivered for Christmas.*

If you desire, purchase terms can be arranged for you. The cost of a Hoover spread over a period of ten months is so little as to be hardly noticeable. If you already have a charge account with us, your Hoover can be carried from month to month on your regular bill. If your name does not now appear on our books, we will be very glad to open an account with you.

Jack Kayos Brennan in 12th; Bill Wants Another Bout

JACK "NOT FIT"
STATES KEARNS;
LOSES PRESTIGE

[BY ASSOCIATED PRESS]
New York, Dec. 15.—Bill Brennan, who was knocked out in the 12th round by Jack Dempsey, the heavyweight champion, in Madison Square Garden last night, said today he intended to ask for another match. "I am not satisfied that Dempsey is my superior," he declared.

The challenger, while saying that he is vindicated him, asserted he was "surprised when the referee motioned him to his corner, believing that he had beaten the count in the twelfth."

Dempsey "Not Fit?"
Brennan was tougher than I expected. He stood up longer than I did, and his fists did not hurt me at any time, but I found him a hard man to hit properly."

The champion proved to be Brennan's master in nearly every stage of the bout, but the challenger withstood many blows in a wonderful manner, though his mounting physical condition. Many opinions were expressed by fans as to Dempsey's inability to finish Brennan quickly. When Dempsey did cut loose, he made a quick hit of it, however, but it was not long before Brennan had shown his mettle and laid off the champion's punches and had split Dempsey's left ear with a right hook.

Dempsey's manager said the champion was not in the best of condition, having trained too hard.

Dempsey expects to leave for the Pacific coast Monday or Tuesday next, 11th or 12th in February, when he will come back to train for his match with Jess Willard on St. Patrick's day.

Receipts Over \$200,000.

The match last night broke all records for receipts for an indoor affair in New York, and exceeded all previous estimates today. The 14,556 seats brought in \$209,552.50. This does not take into account the receipts from about 1,000 temporary bleacher seats and 2,000 persons who obtained standing room. Deducting Dempsey's share of \$100,000, the champion's share of \$25,000 last night, the promoters estimated profit, after paying taxes and expenses probably will be about \$12,000, it was estimated. The federal tax will be approximately \$21,000 and the state tax \$10,000.

—By Harry Jones Prentiss.

Reports from the ringside say that Dempsey's corner men were scared stiff until the wicked blow to the heart flopped Brennan. Bill was looked upon as good enough to have a chance, but when he was shot down experts declared it was the biggest surprise that has occurred in boxing circles in years.

As a result of the battle, Jack Dempsey will lose much of the prestige that he has been having. He no longer can be looked upon as the wonder fighter, although he still will not rate as such a great favorite when he next steps into the ring.

"Y" PREPARES BIG ATHLETIC CARNIVAL

Classes of the Y. M. C. A. are preparing for the New Year's meet, which will give Janesville an opportunity to see the work of the physical department. More than 150 boys and girls will take part in the exercises which will include gymnastic and calisthenic exercises.

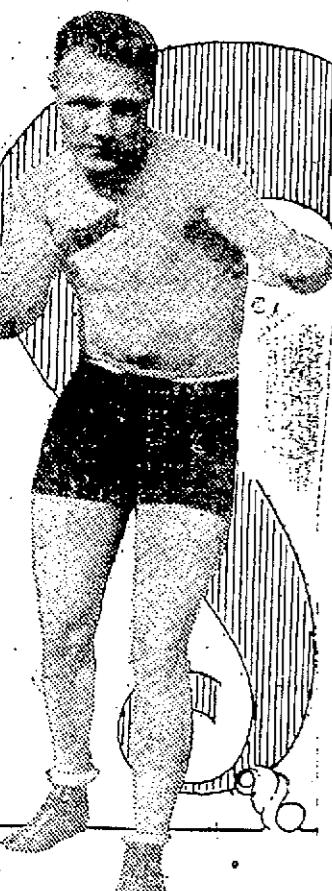

Junior B class of boys between 10 and 12 will give a calisthenic drill, and will use the spring board and jumping standards. A class of 12 will make a basketball drill. Junior A class, 12 to 14 years, will present a wad drill and perform on the buck with spring board, and a pyramid on the parallel bar.

Junior high school class will give an exhibition of stunts with Indian clubs and will perform on the rope, hoses and rings. Senior high school class will present a dumbbell drill on the parallel and horizontal bars and will form a ladder pyramid. The seniors will give an exhibition in boxing, and will hold a short basketball game.

Director Bergman plans exercises for the business men, newsboys, vocational school and employed boys' classes.

DUNN BUYS COLLINS' INTEREST IN ORIOLES

Baltimore, Dec. 15.—While a New York train stood in a Philadelphia station, Jackie Dunn, president-manager of the Baltimore Indians, completed a transaction with Eddie Collins, second baseman of the Chicago White Sox, which made Dunn virtual owner of the Orioles. In exchange for a certificate representing 75 per cent of the club stock, Collins sold his 1,250 shares for \$35,000, with other recent purchases, becomes owner of 1,000 of the 1,250 shares issued by the club, which he has managed for the last 15 years. Dunn was on his way to the baseball meeting at New York, and Collins is a resident of Philadelphia.

EIGHTH ROUND

After a few exchanges at close quarters, Dempsey let go his left to full length to the body. Then he tried a right cross, which grazed the neck. In return, Brennan sent a left to face and Dempsey hooked left and right to head. Dempsey missed another right cross, but came back quickly with right and left to head, shaking Brennan rough. The going became more rugged, with changes with Dempsey holding the better of the exchanges. They were fighting at close quarters in Dempsey's corner at the bell. Dempsey's round.

SECOND ROUND

Dempsey landed a light right on the neck. Brennan repaid with a right to the neck. Then they got into a slow, drawn mixture.

Dempsey missed a left hook for the head. Brennan hooked left to stomach. Both worked at close quarters.

Dempsey sent his right to the head. Short lefts and rights were exchanged at close quarters and Dempsey sent a half arm left to the body.

Dempsey landed a right right on the neck. Brennan sent a right to the face.

Dempsey landed a right uppercut to the head. Brennan got in two half arm uppercuts over the heart.

They were in a lively mixup at the bell. Brennan had a shade in this round.

THIRD ROUND

They rushed into a clinch and exchanged body blows. Both exchanged short right uppercuts.

Dempsey followed by a left and right to the head. Dempsey then started after his man with left and right hooks, but seemingly did not put much power into the blows. Dempsey showed a slight, sudden, very even exchange, with honors fairly even.

Dempsey crossed his right hand to the ear. The hardest blow so far in the fight. The champion, whether intentionally or not, missed the eye.

He jabbed at the head and then brought his left to Brennan's mouth, which was bleeding at the close of the round. Dempsey's round.

FOURTH ROUND

They exchanged body blows with both hands and then landed light left and right hooks at close quarters.

Dempsey blocked a left lead for the face and sent a short right over the heart.

There was a good deal of ineffective work at close quarters.

Brennan sent his right twice to the head.

Dempsey jabbed left to face and a short right cross to the ear.

Then Dempsey sent a left with a left hook to the head and shot two vicious rights to the face.

Dempsey was putting more strength into his punches.

Get it!
Our Budget Plan will help you

COME in! Let us explain how the Budget Plan goes ahead with that New Edison for Xmas.

It breaks up the payments,—scatters them through 1921,—fits them to your pocketbook.

Besides, you're using an after-the-war dollar to buy a before-the-war value. The New Edison has gone up in price less than 15% since 1914. Mr. Edison has kept prices down by absorbing increased costs himself. You get the benefit.

GRAIN

Chicago Review

Chicago, Dec. 15.—Wheat dropped
quickly in value today as a result of
radical enlargement of the government
marketing program. The price of grain
on the decline, however, there was
good buying attributed to the
seaboard. Trading was active, despite
the fact that grain and sugar prices
the price was at a moderate discount
as compared with March. Opening
quotations, which ranged from \$1.60
to \$1.65 and March \$1.69 to \$1.75, were
followed by moderate rally in some
cases.

Subsequently, weakness intensified
and it was said country offerings in
the southwest was much larger. The
close was unsettled, \$1.65 net lower
with December \$1.65 1/2 and March
\$1.68 1/2.

Corn-like wheat underwent a set-
back, after opening 7 1/2 cents lower,
including May at 70 1/2 to 71 1/2 cents
recovered somewhat but then sagged
again.

There was a notable lack of sum-
port except from shorts. The close
was nervous, 27 1/2 to 33 1/2 net lower,
with May 49 1/2 to 49 3/4.

Oats weakened with other cereals,
starting 50 1/2 cents and May 49 1/2 to 49 3/4
and ending more.

Speculation of grain and hogs had a
bearing effect on provisions.

In Selecting a Xmas Gift

The New AMPICO Electric Reproducing Piano

Amelita Galli-Curci says:

"The AMPICO is to my mind one of the most potent musical factors in disseminating music as it should be heard, in the homes of those who enjoy it by natural inclination and brings it in the midst of those who are not able to visit Metropolitan Concert Halls to hear great artists".

Amelita Galli-Curci

Alma Gluck says:

"What an extraordinary combination. Mr. Leo Ornstein hearing himself play the first movement of the Concerto, accompanied by Mr. Bodansky's orchestra. If the public may hear music of such perfection at home, I fear they will not be so eager to attend concerts. Then what will we do? However, for sake of the home I congratulate you most heartily"

Special Bargains on Holland Player Pianos

We have a few pianos left from a carload that were purchased at a low figure, and we give you this advantage for the Holidays.

Holland Players, any wood or finish, regular price \$750, Xmas price... \$585

WE MAKE THIS SUGGESTION. Make it a lasting gift. An ornament for the home-musical recreation for the family--inspiration for the children--a gift that will make today--tomorrow and all future Xmas days filled with joy and happiness.

The Schumann Pianos and Player Pianos

The Columbia Graphophone Company, one of the largest talking machine companies in the world writes:

"The SCHUMANN piano has stood its test at our recording laboratory continuously for twelve hours or more per day. Its wonderful tone has charmed and pleased many different nations in the accompaniment of making graphophone records. It pleased the Spanish, German, Polish, Hungarian, Bohemian, Italian and Norwegian pianists and orchestra leaders in their particular work of sentimental, patriotic and characteristic songs and dances."

Respectfully Yours,

A. Heindl,
Manager Record Dept.
Columbia Graphophone Co.

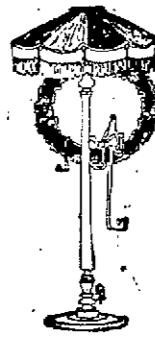

We have the Schumann Upright Piano in any wood or finish at a special Xmas offer of \$525
The Schumann Player Piano at the Xmas price of \$850 complete.
